

# Sumon Biswas

*Postdoctoral Researcher at Carnegie Mellon University*  
Software and Societal Systems Department, School of Computer Science

TCS Hall, 4665 Forbes Avenue, Pittsburgh, PA 15213  
☎ +1 (515) 708-6166 • ✉ [sumonb@cs.cmu.edu](mailto:sumonb@cs.cmu.edu) • 🌐 [sumonbis.github.io](https://sumonbis.github.io)  
🔗 [sumonbis](#) • [sumonb](#) • 🎓 [sumonbiswas](#)

Computer science researcher with a goal to innovate in the intersection of Software Engineering (SE) and Artificial Intelligence (AI). With a particular focus on the *SE for AI* area, I improved algorithmic fairness and safety in ML-enabled software. By adopting both formal and empirical approaches, I am focusing on the design, verification, and analysis of intelligent software systems for fairness, safety, and sustainability.

## Research Interest

---

Software Engineering	Verification, Design and Architecture, Empirical Software Engineering
Artificial Intelligence	Algorithmic Fairness, Auto ML, DNN Verification, ML Technical Debts
SE for AI	Causal Reasoning, Sustainable AI, Trustworthiness and Safety

## Academic Qualifications

---

<b>Postdoctoral Researcher</b> <i>Carnegie Mellon University</i> <b>Advisor:</b> Dr. Eunsuk Kang	<b>Pittsburgh, PA</b> 2022–p.
--	----------------------------------

<b>Ph.D. in Computer Science</b> <i>Iowa State University</i> <b>Advisor:</b> Dr. Hridesh Rajan <b>Dissertation:</b> Understanding and Reasoning Fairness in Machine Learning Pipelines	<b>Ames, IA</b> 2016–2022
--	------------------------------

<b>M.S. in Computer Science</b> <i>Iowa State University</i> <b>Advisor:</b> Dr. Hridesh Rajan <b>Thesis:</b> Understanding Unfairness and its Mitigation in Open-Source Machine Learning Models	<b>Ames, IA</b> 2016–2018
---	------------------------------

<b>B.S. in Information Technology</b> <i>Jahangirnagar University</i> <b>Advisor:</b> Dr. Shamim Al Mamun <b>Thesis:</b> Cloud Based Healthcare Application Architecture and Electronic Medical Record Mining	<b>Dhaka, Bangladesh</b> 2011–2015
--	---------------------------------------

## Employments

---

<b>Carnegie Mellon University</b> <i>Postdoc at Software and Societal Systems Department (S3D), School of Computer Science</i> 🏠 <b>Projects:</b> Model based Engineering of High-Assurance Systems (DARPA), Sustainable Software Design (NSF)	<b>Pittsburgh, PA</b> May 2022 – Cont.
--	---

<b>Iowa State University</b> <i>Research Assistant, Laboratory of Software Design</i> 🏠 <b>Projects:</b> Dependable Data-Driven Discovery (NSF TRIPODS), Big-Code Mining & Analysis (NSF), ML Repair	<b>Ames, IA</b> May 2018 – May 2022
--	--

<b>Iowa State University</b> <i>Teaching Assistant, Department of Computer Science</i> 🏠 <b>Courses taught:</b> • Software Development Practices • Advanced Programming Techniques in C & C++	<b>Ames, IA</b> August 2016 – May 2018
---	---

**Bangladesh University of Business and Technology** 🏠

Lecturer, Department of Computer Science & Engineering

**Courses instructed:** Computer and Programming • Structured Programming Language • Pattern Recognition

**Dhaka, Bangladesh**

January 2016 – July 2016

## Publications

The marked<sup>(g)</sup> authors are graduate students mentored by me.

**Honors & Awards**

- **Distinguished Reviewer**: Selected as *Distinguished Reviewers* for the journal, ACM Transactions on Software Engineering and Methodology (TOSEM)  2022
- **Research Excellence Award**: Awarded by Iowa State University recognizing outstanding research 2022
- **ACM CAPS Award**: Awarded by ACM SIGSOFT to attend in-person ICSE 2023 conference held at Pittsburgh, PA 2022
- **Publication Award**: Awarded by Computer Science Department at Iowa State University for publication in the top-tier venues in consecutive years 2021
- **ACM CAPS Award**: Awarded by ACM SIGSOFT to attend ESEC/FSE conference 2021
- **Panelist at ESEC/FSE'20**: Selected as a panelist in the session on Fairness at ESEC/FSE 2020  2020
- **PLMW Scholar in PLDI'19**: Awarded by Programming Language Mentoring Workshop (PLMW) at the PLDI conference at Phoenix, AZ 2019
- **Professional Advancement Grants**: Awarded by Graduate and Professional Student Senate at Iowa State University 2019
- **ACM Travel Grant**: Awarded to attend IMA Workshop organized by Institute for Mathematics & its Applications (IMA), University of Minnesota  2019

**Services****Journal Reviewer.....**

Publons Web of Science reviewer profile 

- **TOSEM**: Serving in the *Board of Distinguished Reviewer* for ACM Transactions on Software Engineering and Methodology (TOSEM)  2021-p
- **TSE**: Serving as the reviewer for IEEE Transactions on Software Engineering (TSE)  2021-p
- **EMSE**: Serving as the reviewer for Springer Journal - Empirical Software Engineering (EMSE)  2022-p

**Conference Program Committee (PC).....**

- **ICSE'25 - Technical Track**: Serving in the program committee of ICSE 2025 Technical Track  2025
- **ICSE'24 - Technical Track**: Served in the program committee of ICSE 2024 Technical Track  2024
- **ASE'23 - Technical Track**: Served in the program committee of ASE 2023 Technical Track  2023

- **ASE'23 - Industry Showcase:** Served in the Industry Showcase track of ASE 2023, Luxembourg [↗](#) 2023
- **ASE'22 - Industry Showcase:** Served in the Industry Showcase track of ASE 2022, Oakland, MI [↗](#) 2022
- **ASE'22 - LBR:** Served in the Late Breaking Results (LBR) track of ASE 2022, Oakland, MI [↗](#) 2022
- **ESEC/FSE'22 - DS:** Serving in the Program Committee of Doctoral Symposium track of ESEC/FSE 2022, Singapore [↗](#) 2022
- **MSR'21 - Technical Track:** Shadow PC member of the Technical Track of International Conference on Mining Software Repositories (MSR'21) held at Madrid, Spain [↗](#) 2021
- **OOPSLA'21 - AEC:** PC Member of Artifact Evaluation Committee (AEC) at ACM SIGPLAN conference on Object-Oriented Programming, Systems, Languages & Applications (OOPSLA) held at Chicago, IL [↗](#) 2021

## Organizing Committee.....

- **WiDS Worldwide Conference Event:** Co-organized the daylong Women-in-Data-Science (WiDS) event at Iowa State University as part of the annual WiDS Worldwide Conference 2022
- **SPLASH'21 (Hybrid):** Served as the Accessibility Chair of the ACM SIGPLAN conference on Systems, Programming, Languages, and Applications (SPLASH 2021) with OOPSLA and REBASE [↗](#) 2021
- **Web Chair:** Served as the web chair of the Midwest Big Data Summer School, organized by Iowa State University, May 17-20, 2021 [↗](#) 2021
- **SPLASH'20 (Virtual):** Served as the Accessibility Chair of the ACM SIGPLAN conference on Systems, Programming, Languages, and Applications (SPLASH 2020) with OOPSLA, ECOOP and REBASE [↗](#) 2020

## Research Experience

---

### Research Grant Experience.....

#### DARPA V-SPILLS

Carnegie Mellon University | 2022 – 2024

*Verified Security and Performance Enhancement of Large Legacy Software* [↗](#)

Working in the synergetic DARPA project to design compositional DSLs and check the safety and liveness of Unmanned Aerial Vehicles (UAV). In particular, building model extraction technique from legacy source code and then verify the models for safe drone systems, e.g., Ardupilot, MAVSDK.

#### NSF EAGER

Carnegie Mellon University | 2022 – p

*Towards a Design Methodology for Software-Driven Sustainability* [↗](#)

Through this grant, we propose a framework for sustainability as a *first-class software quality attribute*. I contributed to writing the proposal and currently building a simulation platform to generate sustainable design strategies for ML-enabled systems.

#### NSF TRIPODS

Iowa State University | 2019 – 2022

*D4: Dependable Data-Driven Discovery* [↗](#)

My research spearheaded writing this grant proposal and thereafter it received the institute-level grant under HDR TRIPODS by NSF. I assisted my advisor (who is the PI of the grant), to launch the interdisciplinary data science hub at Iowa State under this institute.

#### NSF CNS – Boa

Iowa State University | 2019 – 2021

*Enhancing Infrastructure for Studying Software and its Evolution at a Large Scale* [↗](#)

By enabling program analysis on machine learning programs and Jupyter notebooks, I contributed to this grant. Built the Python language support for Boa for large-scale software repository mining and analysis.

#### Facebook Probability and Programming Award

Iowa State University | 2020 – 2021

*Big code assisted neural architecture search* [↗](#)

Contributed to writing the grant proposal and thereafter my dissertation was partially supported by this industry grant. My work on compositional reasoning of ML pipeline (FSE'21) was funded by the grant.

**Research Mentoring**.....

- 2022 – p **Yining She (he/him)**  
Carnegie Mellon University (Ph.D. student)  
Mentored from the beginning of his Ph.D. on ensuring long-term AI fairness and safety, from ideation to formal modeling and building a simulation framework. A position paper on the topic has been published in the FSE'23 Workshop – SE4SafeML.
- 2021 – 2022 **Giang Nguyen (he/him)**  
Iowa State University (Ph.D. student)  
Mentored him as a senior Ph.D. student on the research on bias mitigation using AutoML techniques. I envisioned and guided him to leverage Bayesian multi-objective optimization to achieve fairness-accuracy trade-off, which has been accepted in ESEC/FSE'23.
- 2022 **Ruchira Manke (she/her)**  
Iowa State University (Ph.D. student)  
Mentored her on the research on verification of neural networks. I guided her to identify the exact research gap and how to leverage existing tools towards modeling and certification.
- 2020 – 2022 **David OBrien (he/him)**  
University of Northern Iowa (B.S.) → Iowa State University (Ph.D. student)  
Mentored him as an REU student on mining software repositories and program analysis. His research progress inspired and helped to get into the Ph.D., where I mentored him further on *identifying technical debts in ML* (ESEC/FSE 2022) and their *impacts on LLM* (ICSE 2024).
- 2021 **Mohna Chakraborty (she/her)**  
Iowa State University (Ph.D. student)  
Mentored her on understanding the issues developers face with NLP-based software, and analyzing the bugs from StackOverflow. She published a student research competition paper under the mentorship in ESEC/FSE 2021 [DOI]. Another follow-up work on the topic is under submission.
- 2020 – 2022 **Usman Goher (he/him)**  
Iowa State University (Ph.D. student)  
Mentored him on empirical software engineering research, designing experiments, and ML model analysis. Especially, I came up with the research direction on Ensemble Fairness and mentored him on that, which has been accepted in ICSE 2023.
- 2023 – p **Sayan Nath (he/him)**  
University of Calgary, M.S. (thesis) student  
Currently, mentoring him on advancing bias mitigation strategy in complex ML models. He is building a genetic algorithm-based search strategy to find the ML hyperparameters efficiently that improve fairness by retaining accuracy.
- 2023 – p **Sina Salimian (he/him)**  
University of Calgary, M.S. (thesis) student  
Currently, mentoring him to develop a testing approach to detect different bias instances in large language models (LLM) and chatbots, using few-shot question generation and assessment.
- 2019 – 2020 **Senior Design Project Team**  
Department of Electrical and Computer Engineering, Iowa State University  
Mentored a five-member senior design team for their two semester-long research project – “*Analysis of GitLab projects using Boa*”. Team members are: Diego Realpe (team leader), Adrian Hamill, Benjamin Carland, Megan Miller, and Yi-Hsien Tan. The goal of the project was to mine source code and metadata from GitLab using the Boa infrastructure. [Project website]

**Research Highlights**.....

- 2022 **Data Science Pipeline:** My research on data science pipeline design was highlighted in the TADS group at Iowa State. 
- 2021 **Fair ML:** My research identified the prevalence of unfairness in open-source machine learning models. 

2020 **Dependability:** My association and contributions towards the NSF TRIPODS grant have been highlighted by the department. [↗](#)

## Teaching Experience

---

### Teaching Assistant.....

#### COMS 327 - Advanced Programming Techniques

Class size: ~230

Undergraduate level, Required CS course, Iowa State University

Fall 2016, Spring 2017, Fall 2019

- Topics** Differences between managed (Java) and unmanaged languages (C/C++) • Design and build large programs from specification • Memory management in C and C++ • Templates and standard library • Concurrent and network programming
- Responsibilities** Assist students with large programming projects and assignments • Debugging and pair programming • Prepare and grade tests • Teach usage of the tools and technologies
- Technologies** GDB, Valgrind, Ncurses, Build systems, e.g., Make

#### COMS 309 - Software Development Practices

Class size: ~250

Undergraduate level, Required CS course, Iowa State University

Fall 2017, Spring 2018, Fall 2018

- Topics** Develop complex software in a team: from idea to release • Software development criteria: client-server architecture, relational database, multi-user setting, concurrent features e.g., online chat • Using SE tools, IDE, source-control e.g., Git • SE lifecycle
- Responsibilities** Weekly lecture (1 hour) in a class section of ~30 students on design patterns, version control, server configuration, database design, etc. • Prepare and record screencasts • Supervise 4-member teams developing software projects throughout the semester
- Screencasts** Created short videos to explain the usages of tools and technologies • Example videos: develop the first Android app, how to host project to Linux server, Using MySQL Workbench for to remote database server, etc.
- Project supervision:** Supervised 8 out of ~55 teams in each semester • Team under my supervision won best project award in Spring 2017 and Fall 2018 • Weekly meeting: explain software requirements and deliverables, solve problems • Technologies: Android SDK, Spring Boot, .Net, RESTful API, Angular JS, MySQL, Java Socket, MVC, etc.
- Project grading** Evaluate demonstrations • Grade user stories and UI design • Code review: functionality, quality, testing • Teamwork • Weekly project reporting
- Supervised projects:** **Fall'18:** Business QR, CookBuddy, ISU Service, Twenty One, Dog Matcher, Project X (best project award), Movie App, Campus Connections  
**Spring'18:** HabiTracker, Smart Art, Image Guesser, CyBike, Next Generation 911 (best project award), CyChat, Time Flies  
**Fall'17:** Battle of the Worlds, Pre Park, Run Samurai, CyDisc, Songusoid, Cute and Fluffy

### Lecturer.....

#### Guest Lecturer

Class size: ~40

Graduate level, Iowa State University

October 2023

- Course** Responsible AI: Risk Management in Data-Driven Discovery
- Lecture title** Assessing and Ensuring Fairness in ML Models
- Topics covered** Understanding societal bias and AI fairness • Fairness metrics and mitigation • Fairness verification • Sustaining fairness

#### Primary Instructor

Class size: ~50

Bangladesh University of Business and Technology

January 2016 - July 2016

- Responsibilities** Lecture • Design courses • Create tests • Conduct programming lab sessions

- Courses instructed
- 1. Computer and Programming Concepts:** Instruct two sections: computer science major and non-computer science major
  - 2. Structured Programming Language:** Instruct theory and lab sessions
  - 3. Pattern Recognition:** Instructor for the seniors in computer science major

## Selected Software Tools

---

### Fairify

Peer-reviewed | ICSE 2023

<https://github.com/sumonbis/Fairify>

Released the first SMT-based formal verification tool for Neural Networks (NN) to verify individual fairness properties. The tool takes an imperative NN and property specification to perform modular verification.

### Fair Preprocessing

Peer-reviewed | FSE 2021

<https://github.com/sumonbis/FairPreprocessing>

Developed the first method to measure compositional bias of preprocessing stages and data transformers in ML pipeline. The repository implements four novel group fairness metrics to identify biased components.

### ML/Python Miner

2019-21

<https://boa.cs.iastate.edu>

Built the large-scale *data science* software repository mining framework using Boa. Leveraged DLTk Python parser to enable program analysis on more than 3 billion AST nodes in the initial dataset. Later mined several datasets listed [here](#), which include mining of Jupyter Notebooks.

### Fair AutoML

Peer-reviewed | FSE 2023

<https://github.com/giangnm58/Fair-AutoML>

This is the first tool proposed to leverage AutoML for unfairness repair. While the existing technique mitigate bias in specific scenarios, this tool achieves better fairness-accuracy tradeoff, which shows robustness over various datasets.

### DS Pipeline

Peer-reviewed | ICSE 2021

<https://github.com/sumonbis/DS-Pipeline>

The artifact contains pipeline architecture benchmark for data science software. The pipelines in-the-small are extracted automatically by program analysis on Python programs. Pipelines in-the-large are extracted manually from a mined GitHub dataset.

## Talks

---

- SE4SafeML Workshop:** Presented our position paper “Towards Safe ML-based Systems in Presence of Feedback Loops” in the workshop of FSE 2023 Virtual
- DARPA PI Meeting:** Presented “Software Architecture for Unmanned Aerial Vehicles (UAV): Automatic AADL Model Extraction and Reasoning” in the DARPA V-SPELLS PI Meeting, 2023 Virtual
- ICSE’23:** Presented the technical track paper entitled “Fairify: Fairness Verification of Neural Networks” at the 45th ACM/IEEE ICSE conference, 2023 Melbourne
- ICSE’23:** Presented the technical track paper entitled “Towards Understanding Fairness and its Composition in Ensemble ML” at the 45th ACM/IEEE ICSE conference, 2023 Melbourne
- Invited Talk:** Invited by Dr. Wallapak Tavanapong (Professor and Chair of Broadening Participation, Iowa State University) to present my research on “Fairness Verification and Sustainability of AI Systems”, 2023 Virtual
- ICSE’22:** Presented technical track paper entitled “The Art and Practice of Data Science Pipeline” at the 44th ACM/IEEE ICSE conference, 2022 Pittsburgh, PA
- Invited Talk:** Presented my research in the [CREATE SE4AI](#) group participated by Concordia University, Polytechnique Montreal, Queen’s University, and University of Alberta, entitled “Understanding and Reasoning Fairness of ML-Based Software” (February 2022) [↗](#) Virtual
- NSF PI Meeting:** Presented my work on “Modular DNN Verification” in the NSF TRIPODS PI meeting chaired by Dr. Lenore J. Cowen from Tufts University, December 2021 Virtual
- ESEC/FSE’21:** Presented technical track paper entitled “Fair Preprocessing” at the 29th ACM ESEC/FSE, 2021 Athens, Greece

10. **ESEC/FSE'20:** Presented technical track paper entitled "An empirical study on ML Model Fairness" at the 28th ACM ESEC/FSE, 2020 Sacramento, CA
11. **TADS Presentation:** Presented my research on "Fairness of Machine Learning Models" in front of Theoretical and Applied Data Science (TADS) Group of D4 Institute, Iowa State University, 2020 Ames, IA
12. **MSR'19 Presentation:** Data showcase and paper presentation entitled "Boa meets python: A boa dataset of data science software in Python language" in Mining Software Repository Conference (MSR), 2019 Montreal, Canada
13. **Panelist @ ESEC/FSE'20:** Selected as a panelist in the session on Fairness at ESEC/FSE 2020 Sacramento, CA

## Outreach Activities

---

- **Research Outreach:** Mentored Zihe Zhao (she/her), an undergraduate student from Rice University (later MS student at CMU), in the ICSE 2023 Student Mentoring Workshop (SMeW) on graduate study and research career trajectory. <https://conf.researchr.org/track/icse-2023/icse-2023-student-mentoring-workshop> 2023
- **SIGPLAN Blog:** Co-authored the ACM SIGPLAN blog to share the experience of organizing a premier hybrid conference. <https://blog.sigplan.org/2022/08/25/hybrid-splash-2021-retrospective> 2022
- **Ambassador of Women-in-Data-Science:** Served as the Ambassador of Women in Data Science (WiDS) initiative organized by Stanford University. 2022
- **Lunch-n-Learn:** Organized the weekly interdisciplinary research discussion for the year at Iowa State Theoretical and Applied Data Science (TADS) group. 2020-21
- **MS Project Mentor:** Mentored Raghul Durairaj Gobi (he/him) on his Masters Project on the usage of Boa framework and dataset. 2021
- **K-12 Outreach:** Organized and served as the judge of the K-12 computational project competition at Iowa State University. 2018

## Professional Activities

---

- **Summer School:** Completed professional development program in Midwest Big Data Summer School Ames, Iowa
- **IMA Workshop:** Attended 4-day workshop on "Recent Themes in Resource Tradeoffs: Privacy, Fairness and Robustness" organized by Institute for Mathematics & its Applications (IMA), University of Minnesota, 2019 Minneapolis
- **Turing Lecture:** I was invited and attended the Turing Lecture at FCRC 2019 by Geoffrey Hinton and Yann LeCun on "The Deep Learning Revolution" Phoenix, AZ

## Affiliation

---

- **ACM:** Member of Association for Computing Machinery (ACM) 2019-23
- **SIGSOFT & SIGPLAN:** Member of the ACM SIGSOFT and ACM SIGPLAN 2020-23
- **IEEE Computer Society:** Member of the IEEE Computer Society 2023
- **IEEE Student Branch:** Served as the vice chair of IEEE Student Branch, Jahangirnagar University 2015-16
